GRATON and GREEN VALLEY

Center of the Famous Gravenstein Apple Section

## Graton and Green Valley

---

Graton lies five miles north of Sebastopol, on the Electric line, in the beautiful Green Valley. To get there, make arrangements with the attendant at the Graton booth, and carriages will be provided to meet you at Graton and show you the most prolific section of Sonoma county. We not only raise everything at a profit raised north of the bay, but we excel in those products. The warm, sandy, loam soil where the moisture is brought right to the surface with cultivation, and without irrigation, produces the very best of all kinds of berries, vegetables, corn, grain, hops, grapes, cherries, peaches, pears, prunes, and last, but not by any means least, the earliest, and best Gravenstein apples grown in this famous Gravenstein apple section. The wonderful stories that you hear of the big yields and large profits are nearly all from the orchards in this vicinity.

The Griffith, Pilkington, Alves, Osborn, Frye, Hill, Moody, Ward, Myers, Winkler, Kaufmann, Purrington, Cochrane, Fletcher, Miller, Maddocks, Bonar, and Davis orchards are in the vicinity of Graton, and Green Valley, and the apples are shipped from Graton station.

The celebrated Barlow berry farm, the largest in the state, is in Green Valley, one mile from Graton.

Our warm sandy soil is also particularly adapted to chickens, and they are very profitable here. The trees help the chickens, and the chickens help the trees.

Come and see us.
